## EXPERIENCE

### AI & Full Stack Developer | Oryol Tech Pvt. Ltd.

Jun 2026 – Present

- Working on AI-integrated full-stack web solutions using modern frameworks and cloud technologies.
- Contributing to end-to-end product development including backend APIs, frontend interfaces, and AI feature integration.

### AI Developer (Official Project) | Vaagdevi College of Engineering

May 2026

- Developed an AI-powered chatbot for institutional queries using Django and OpenAI APIs.
- Designed backend workflows and REST API integrations for automated response handling.

### Creative Tech Lead | Kalaakshi

Apr 2026 – Jun 2026

- Contributed to the development and deployment of a live event management platform.
- Assisted in visual designing and user experience aspects aligned with Kalaakshi's vision.
- Live: [www.kalaakshi.com](https://www.kalaakshi.com)

## PROJECTS

### College Chatbot Assistant | Python, Django, OpenAI API

- Developed an AI-powered chatbot for institutional queries using OpenAI APIs.
- Built backend workflows and REST API integrations for automated responses. GitHub: <https://github.com/nayanirithish/college-chatbot.git>

### HawkEye AI – Missing Vehicle Finder | React, AI, SQLite

- AI-powered system that detects and tracks missing vehicles through highway and traffic CCTV cameras.
- Integrated real-time video analysis and vehicle recognition to assist law enforcement and road authorities. GitHub: <https://github.com/nayanirithish/hawkeye-ai.git>

### Captain Bro | Productivity Application

- React-based intelligent productivity app handling complex user workflows through AI automation.
- Integrated backend services and AI capabilities to deliver a seamless, responsive cross-platform experience. GitHub: <https://github.com/nayanirithish/captain-bro.git>

### Kalaakshi – Live Event Management Platform | HTML, CSS, JavaScript

- Developed and deployed a live event management platform with responsive frontend design.
- Implemented visual designs for registration and event management. Live: [www.kalaakshi.com](https://www.kalaakshi.com) | GitHub: <https://github.com/nayanirithish/kalaakshi.git>

### School ERP | Enterprise Resource Planning

In Progress

- Developing a comprehensive ERP system to digitize school administrative and academic operations.
- Building modules for student records, attendance tracking, and faculty management with role-based access. GitHub: <https://github.com/nayanirithish/school-management-system.git>

### Oryol Technologies Pvt. Ltd. – Company Website | React, Full Stack

- Designed and developed the official company website for Oryol Technologies with a modern, responsive UI.
- Built complete frontend and backend integrations to showcase company services and portfolio. GitHub: <https://github.com/nayanirithish/oryol-technologies-pvt-ltd.git>

## SKILLS

|               |                                               |
|---------------|-----------------------------------------------|
| Languages     | Python, SQL, JavaScript, Java, HTML, CSS      |
| Frameworks    | Django, REST APIs, API Integration            |
| Database      | MySQL, SQLite                                 |
| Tools         | Git, GitHub, VS Code, Antigravity, OpenAI API |
| Core Concepts | Data Structures & Algorithms (DSA), DBMS      |

## EDUCATION

### Vaagdevi College of Engineering | 2023 – 2027

B.Tech in Computer Science & Engineering | CGPA: 7.78

## CERTIFICATIONS & ACHIEVEMENTS

- CS50: Introduction to Computer Science — Harvard University (In Progress)
- Hackathon 2025 — Complaint Registration System
